

About Us

CorLa is the leading provider of outsourced PFI and BSF management services and asset management consultancy. Since its establishment in 2001, CorLa has built an excellent reputation for the provision of efficient and cost effective management solutions to the PFI and BSF markets.

CorLa provides PFI SPV management solutions which have been assembled and finely tuned to meet the specific demands of the increasingly sophisticated investor.

CorLa provides general, technical and financial management consultancy to several Building Schools for the Future ventures.

CorLa provides an extensive range of services for secondary fund managers enabling them to achieve the secure delivery of successful project outcomes whilst mitigating project risks and generating improvements on project returns and general value enhancement.

CorLa currently manages 16 major PFI/BSF projects that have a combined market capitalization of circa £1.5 billion pounds.

CorLa is the leading independent UK provider of outsourced management, financial and technical SPV management services to the PFI/BSF industry. Project success is achieved by delivering fully integrated services and issue specific solutions.

CorLa provides consultancy services that focus primarily on three main areas –

- PFI SPV general and financial management,
- Building Schools for the Future LEP/SPV general and financial management, and
- Asset management.

As part of, and in addition to the above, CorLa also provides –

- Bid management and support
- Value enhancement consultancy
- Project life-cycle consultancy
- Project management services
- Financial modeling
- Dispute management and resolution
- Bench-marking and market testing of service provision
- Company Secretarial services

CorLa has a team of 26 staff, including 18 professionals, working from 4 regional centres across the UK.
